

ABOUT US

Chitkara Educational Trust was established in 1998 by Dr. Ashok K. Chitkara and Dr. Madhu Chitkara to meet the challenging demands of the society. The sole emphasis is given on real learning for the real life by nurturing the raw talent of students and moulding them into the professional. Turning the dreams into reality; the trust aims at making technical education accessible to everyone and helping them to reach their fullest potential.

Chitkara Educational Trust has established a University in the state of Himachal Pradesh in the year 2008 under Himachal Pradesh Private Universities (Establishment and Regulation) Act, 2 of 2009. Chitkara University, Himachal Pradesh is NAAC accredited is a State Private University with the right to confer degrees as per the Sections 2(f) and 22(1) of the UGC Act, 1956. Being founded by a family of academicians, consequently our ethos is geared towards development of society by providing high quality education. Chitkara University, Himachal Pradesh is a NAAC accredited University and is ranked among the top 50 private and deemed Universities in the country by Digital Learning Magazine in January 2017.

The Campus is spread over approximately 17 acres with a built up area of about 32,330.26 sq.mts and provides state-of-the-art facilities and ambience for a conducive learning environment. The University takes pride in its extension activities related to its Institutional Social Responsibility. The students and faculty participates enthusiastically to serve the community in the neighbourhood of the campus that has instilled good moral values and a sense of responsible citizenship among the students. The faculty takes on the role of mentors to the students and act as their friends, philosophers and guides, thus, providing the much needed emotional support in this fast moving and competitive world.

ABOUT KOHA

Koha is the first open-source Integrated Library System (ILS). In use worldwide, its development is steered by a growing community of libraries collaborating to achieve their technology goals. Koha's impressive feature set continues to evolve and expand to meet the needs of its user base.

Full-featured ILS, in use worldwide in libraries of all sizes, Koha is a true enterprise-class ILS with comprehensive functionality including basic or advanced options. Koha includes modules for circulation, cataloging, acquisitions, serials, reserves, patron management, branch relationships, and more.

Salient Features:

- Supports International Standards & Protocol such as MARC 21, z39.50 etc.
- Supports Import/Export data compatible to MARC
- Multilingual & Strong Web OPAC
- Comprehensive advance search
- Flexibility to customize online public access catalogue according to your library needs
- OPAC can be used as Content Management System
- Printing functions for barcode labels, patron cards and reports
- Virtual Book Shelf & Course Reserve
- Supports copy cataloguing
- Provision to have branch libraries and items transfers
- Budget & Fund Management
- Customizable Data Entry Sheet (In different framework) & supports import/export MARC framework
- No platform dependency. It can run on Linux, Windows etc.
- It uses MySQL as backend RDBMS and Apache Web server (Open Source Software)
- Support Multiple Instances (One can create more than 1 library with different database)

OBJECTIVES OF THE WORKSHOP

The workshop is intended to equip participants with technical skills for automating and digitizing their own libraries with the following objectives:

- To create awareness among professionals about open source technology & its application in library
- To make the library professionals technically sound so as to automate, digitize their library considering the issues of copyright independently without any support & develop the web application to control the information explosion
- To enable the library & information professionals to face the technological challenges such as multi-branch handling, installation etc.
- And, to strengthen the society & professionals

Extensive practical sessions/hands-on-training, enriched with interactive sessions will be the hallmark of the Workshop. The Workshop will be handled by eminent experts with extensive practical experience in Linux and Koha.

WORKSHOP CONTENTS

The following areas will be covered in the workshop and hands on practical training will be given in these areas:

- Open Source System & Why Open Source System?
- Introduction to Linux, installation of Ubuntu (to dual boot along with Windows), understanding Ubuntu file system layout, creation of user and group, basic commands
- Koha & its different modules such as Acquisition, Cataloguing, Circulation, Serial Control & OPAC
- Step-by-step PDF manual on "How to implement Koha?"
- Customization of Koha Online Public Access Catalogue
- Detailed discussion on Cataloguing MARC-21 framework
- Handling of Multi Libraries & Branch Libraries with Koha in the same server
